PUBLIC ANNOUNCEMENT

It has come to the attention of the Gitsegukla Health and Gitsegukla Band Office that there is marijuana laced with fentanyl being sold in our community. Two community members have been affected by the laced marijuana to date. The traces of fentanyl were confirmed by bloodwork this week.

We would like the community to know that the RCMP are now involved and will be assisting the community with this issue. We urge community members to be safe while using recreational drugs. Now that marijuana is legal, the only safe places to purchase marijuana are at Government Regulated dispensaries; such as the one in Terrace or online.

To those who are bootlegging and selling marijuana, you will be held to the highest extent of the law. Gitsegukla Administration will enforce the Housing Policy to ensure that this type of activity is not happening at the Gitsegukla Band Rental Units. If you are found guilty of bootlegging or drug dealing, it will result in an automatic eviction.

If you have any information of those who are involved in this illegal activity, we encourage you to make a report to the RCMP.
